fashion color report
spring 2010

Splashes of Sunshine for Spring 2010

Designers bring splashes of sunshine to the runway for spring 2010. Vibrant brights add a sense of excitement to the color palette, while practical neutrals provide a safety net for cautious consumers.

“Now more than ever, women are vigilant when it comes to spending,” said Leatrice Eiseman, executive director of the Pantone Color Institute®. “Instead of reinventing their wardrobe at the start of each season, consumers want pieces to complement what they already own. Pairing a bold color with a basic piece or freshening up their look with bright accents addresses the need for practicality, as well as fun.”

Spring and summer naturally evoke feelings of calm ocean waters and tranquil beach vacations in cool, vibrant, tropical **Turquoise**. This soothing hue from the blue-green family conjures feelings of escape, especially when paired with **Amparo Blue**. With more warmth than the typical spring navy, this particular shade of blue is extremely appealing because of its brighter, more energetic attitude. Like the scent of a blossoming flower, **Violet** lends a romantic air to the warm-weather palette. This intriguing purplish hue is a distinctive addition to any wardrobe.

Yellow has made its mark on fashion and spring will further this trend with gleaming **Aurora**. Reminiscent of the first glimpse of yellow as the sun begins to rise over the horizon, this shimmering, slightly greenish yellow adds a bold infusion. Energy continues to surge throughout the warmer hues of spring, leading to provocative **Fusion Coral**. This inviting orange connects directly to tangy **Tomato Purée**, this season’s classic red. Pair it with Turquoise for a retro look.

Thoughtful, cautious neutrals provide a dependable backbone to the brights of spring. Kick back and enjoy the bubbly luxury of **Pink Champagne**. This delicate, wispy tint is the season’s newest neutral. The melding of Pink Champagne, Tomato Purée and Amparo Blue is a refreshing take on the classic springtime combination of red, white and blue.

Three additional neutrals round out the palette. **Tuscany**, a warm beige hue, provides the perfect backdrop and works well as a solid base color with dynamic accents like Fusion Coral or Violet. **Dried Herb** is the ultimate green neutral, pairing well with all other colors. Ideal for bigger ticket items, cool **Eucalyptus** is the eternal, practical gray. Choose this nuanced neutral and add brightly colored exclamation points in shoes, jewelry and handbags.

How are retailers responding to the current consumer consciousness toward fashion? How does color play into it?

Comparison Shopping

“The fashion enthusiast customer craves special and unique, with color setting the mood.”

RED is the message from the runway; bright lipstick to deep Bordeaux will fill her passion for a color saturated season.”

— **Ken Downing**

Senior Vice President/Fashion Director, Neiman Marcus

“Links of London is now focusing on more directional, fashion forward pieces, which discreetly nod to the season’s key trends.”

Using a spectrum of color to convey depth and sparkle, we’re getting creative with gemstones, materials and arresting finishes. Our new Surfaces collection for fall '09 is embellished with glinting, Golden Tiger’s Eye and mouth-watering Green Peridot stones. Even the humble chain, that ultimate fashion classic, has been reinvented with our tough and bold Brit Lines collection of signature chains. Charms, that other cult fashion staple, have been given a new, urban spin with our Links-ID dog tags in hues of Pink Gold and Silver, gemstones and colorful enamel.”

— **Elizabeth Galton** Creative Director, Links of London

“Overall, the Saks Fifth Avenue customer responds strongly to color.”

From vibrant jewel tones to bold pops of brights, color lifts the spirit and flatters the skin tone, allowing our customer to truly look and feel her best. Through unique and unexpected color combinations, one is able to express her creativity and individuality.

“Given the current consumer consciousness, we find that our customer is demanding fashion. She is looking for something novel, something that she does not already own. Color is able to provide the ‘wow’ factor that entices one to shop.”

— **Colleen Sherin** Fashion Market Director, Saks Fifth Avenue

“Consumers have an insatiable appetite for what’s new and fun in fashion, and that is true this season as well. While they may

be more selective in their purchases right now, people still want to be excited and inspired by fashion. Color is arguably one of the most essential elements each season as it triggers the emotional ‘buy me’ reaction!”

— **Nicole Fischelis** Fashion Director, Macy’s

How has the current consumer consciousness affected the direction of fashion? How does color play into it?

Color Advice

“Designers have responded to the shift in the economy

in one of two ways: by using bold colors in comforting, familiar silhouettes; or by

creating eye-catching one-of-a-kind pieces that are completely irresistible. The fashion constant, however, has been and always will be color. There’s nothing like a vibrant hue of Royal Purple or Golden Yellow to make us feel optimistic and hopeful for the future – just look at our first lady! She wears color impeccably. I predict that we’ll see a lot more brights in spring 2010 to inspire and uplift everyone’s mood.”

— **Nina Garcia** Fashion Director, *Marie Claire*
Judge, Lifetime’s “Project Runway”

“Designers are drawing from styles of the 1940’s movies, and the ever present fascination with

glamour as depicted in films of that period. Red is prominent. However, rather than charging forward with bright and bold decisions, many consumers are taking a softer, more gentle approach with their color palettes. Using a softer base creates longevity as it can always be updated to look dramatically different with accessories. In this time of economic unrest, people are looking for comforting colors, and the savvy consumer is always searching for quality over quantity. Refuse to be beaten by the economy.”

— **India Hicks** Creative Partner, Crabtree & Evelyn

“I’ve found that shoppers – especially women – are not shying away from color

when it comes to new apparel purchases, despite the popular notion that in tougher economic times people gravitate toward neutrals.

If she’s on a budget, a woman may resist buying a garment that is overtly trendy because she knows she may only get one season out of it. But color is rarely seen as trendy by the consumer. Sure, there are popular colors any given season, but they don’t cycle out of style as quickly as silhouettes or other details might.”

— **Clinton Kelly** Co-host, TLC’s “What Not to Wear”

Cynthia Steffe

by Shaun Kearney

INSPIRATION

Dreams, Atlantis, the unknown, mountains and waterfalls, the Garden of Eden

COLORS

Dreamy, hazy colors: warm shades of Coral and Yellow with Desert Khaki, and cool shades of Indigo, Periwinkle, Gray and Mint Green with a hint of pale, Rosy Pink

SIGNATURE COLOR

Misty Gray, a shade that is pretty and delicate yet also modern with an edge – it's a fresh, wearable alternative to White and looks right with warm, neutral shades as well as cooler shades

Must Haves for Spring

Adam Lippes Draped shorts in our hand-drawn Primrose print with a Bright Yellow ground

Adrienne Vittadini The Blue and White batik print lounge pants with a Deep Navy embellished tunic from the Aqua group

Andy & Deb Voluminous mini skirt

Baby Phat by Kimora Lee Simmons Our blazer or denim vest paired with shorts – any spring look can be accentuated with the addition of multi-strand necklaces and platform sandals; shoes and accessories, as always, will play a crucial role in dramatizing any look

Badgley Mischka Little Red cocktail dress

Carmen Marc Valvo A super sexy cocktail dress

Catherine Malandrino A Deep Purple jumpsuit with ornamental jewelry

Charlotte Ronson Double-faced chambray plaid boyfriend shirt in Chambray

Cynthia Steffe by Shaun Kearney A sleeveless suede trench dress with a waterfall cascade collar in Mint Green

David Rodriguez My pleat-front top that can be worn as a jacket or as a two-piece dress with the matching skirt

Dennis Basso A little fur bolero with inserts of lace or hand-embroidery

Ella Moss by Pamella Protzel Off-the-shoulder mini dress with a peek-a-boo of mesh

Erin Fetherston The drapey tie-front Tan leather jacket

Lela Rose Striped surfer knits – using bold pastels interspersed with tones from the sea, these knits evoke a casual luxury that gives edge to any look

Maria Pinto The maxima dress because it is all about movement and sensuality – it bands together silk suspended from tulle spiraling around the body; the architectural aspect of the straps allows the shape to suspend from the shoulder and dance around the body; the color is Cobalt, vibrant yet mysterious

Nanette Lepore A long, multi-stripped tube dress in a mix of sun-drenched brights and weathered neutrals

Pamella Roland by Pamella DeVos Our beautifully tailored lightweight tweed coat in shades of Pink, Cream and Pale Gold with delicate floral embroidery

Peter Som A Pale Blue jacquard sheath that can take you from day to evening

Ports 1961 by Tia Cibani The transparent organza blazer in airy Oasis

Rebecca Taylor The quilted voile jacket that comes in Ballet Pink, White and Black – the style is modern and cool, yet it is such a feminine and familiar fabric

Reem Acra Accessories, necklaces and belts in any color that pops!

Tadashi Shoji Garden Pink silk crepe cocktail dress

Temperley London by Alice Temperley My Amora jumpsuit

Thuy by Thuy Diep My cut-out-back dress color-blocked in Muted Clay, Toasted Almond and Egret White

Tibi by Amy Smilovic Lavender shorts with cascading ruffles – the tranquil color paired with the feminine design makes for an elegant take on the everyday shorts design

Tommy Hilfiger A soft-washed cotton jacket in cool beach tones: Sea Blue, Pink and Peach

Tracy Reese A classic, yet modern statement coat in Passionfruit

VPL by Victoria Bartlett The new insertion bra in Lilac

Yigal Azrouël The Berber pant – a richly embroidered antique cotton piece in a range of all colors from the palette

Designers reflect on the current consumer consciousness toward color and fashion

Consumer Driven

Adam Lippes Color has always been extremely important to me as a designer and continues to be. I think customers want special and unique now more than ever. And they want to see good value. One way of offering that is with color.

Adrienne Vittadini Color is emotional and will be a very important mood lifter for spring 2010. This collection is based on bursts of color and a mix of patterns with signature Adrienne Vittadini heritage.

Andy & Debb With all of the depressing news about the economic crisis, color should play an important role in fashion to make people happy. Color therapy always works!

Baby Phat by Kimora Lee Simmons Baby Phat has a long tradition of connecting to our consumers via vibrant palettes. Value sensitivity on the part of our consumers encouraged us to continue using feminine and sexy tones that create value and capture the imagination.

Badgley Mischka Everything needs to be a must-have. Color causes an emotional trigger.

Carmen Marc Valvo Although no one needs another basic Black cocktail dress, Black is still our number one seller. So, it's about making Black special.

Catherine Malandrino Everything that brings a smile to a face is valuable for me, so color in this present environment is essential.

Charlotte Ronson Our color palette responds to the sensitive economic climate through its classic sophistication and longevity. The Nudes, Blacks and splashes of soft colors allow our collection to be fun and wearable now, yet still accessible for seasons to come.

Cynthia Steffe by Shaun Kearney I think spring is about wanting to be carried away by clothes, finding the fantasy in them, but never leaving the ground. The color palette reflects that in fresh, airy, hopeful colors, grounded by a soft shade of Gray that feels ethereal and practical at the same time.

David Rodriguez I am working very hard to keep the look exciting, but at a sharper price so that the customer will love the item and not have to think twice about purchasing it.

Dennis Basso It's important that this collection be exciting and, using color, show the consumer something new that she will want to add to her wardrobe.

Ella Moss by Pamella Protzel Women are much more careful in what they purchase. Consequently, color becomes the most important and first thing that a customer sees when she is going through a rack of clothes. It has to be a great shape and made beautifully, but the first thing that grabs her attention is color.

Erin Fetherston People need to be inspired, and color creates excitement and desire. People are also looking for investment pieces that are seasonless and timeless, so neutral classic colors in combination with fresh and vibrant colors seems like a relevant direction in this time.

Lela Rose There has always been an abundance of color in the collections we offer. We are seeing more and more women picking bold colors for their wardrobe rather than the "LBD." I have always liked the way a woman stands out when she is in a great colored dress. We are offering even more bold color combinations that our customers are really responding to.

Designers reflect on the current consumer consciousness toward color and fashion

Consumer Driven *continued*

Maria Pinto As always, I feel connected to women's needs in these ever-changing times. More than ever, the collection is about offering colorful styles that tempt us into submission. Consumer consciousness has never been more relevant, and we are more precise in fulfilling our needs as opposed to our desires. That said, color is one of the most dynamic aspects in choosing what we will bring into our lives. Color is the enticement factor.

Nanette Lepore Color is emotional. It attracts the consumer's eye and brightens her mood. Colorful clothing is essential in today's market.

Pamella Roland by Pamella DeVos We recognize that consumers are being more careful with purchases, and they want perfect fit and real value. Our goal is to excite our customers with fabrics in beautiful new colors at sharper price points each and every season.

Peter Som Each piece of clothing must be its own little special jewel. This happens through fabric, cut, detail and most definitely color!

Ports 1961 by Tia Cibani I feel that we need to evoke strong emotions with our consumers in order to convince them. A product must touch their senses, and color plays a significant role in this!

Without overpowering and over-indulging, it is vital to deliver color in a spring/summer collection that will have the spirit of summer joy and summer fun.

Rebecca Taylor We feel that "anything goes" – we are not feeling restricted. In times like these it is important to do what feels right and believe in yourself, and the customer will buy what excites her.

Reem Acra The collection will stay happy, vibrant and versatile with playful options to change the look completely. Accessories are a big part of this collection and they give another layer or dimension to the clothes.

Tadashi Shoji I am trying to make dresses that women can use season after season and do so at a democratic price point. The colors I chose for this season work on women of all ages and sizes – hopefully bringing a positive energy into their spring wardrobes.

Temperley London by Alice Temperley We have found that in gloomy economic times such as these, people want fashion to provide something uplifting and spectacular and are looking for a tonic to the general air of doom and gloom. The spring/summer 2010 collection is bright, fun and, in places, extravagant as a result.

Thuy by Thuy Diep I exude optimism through quirkiness, confidence and individualism – embracing the future by defining it. Colors are key, not through over-indulgence, but through beautiful, understated sophistication.

Tibi by Amy Smilovic We're responding with coloring that is unabashedly happy and feminine with an edge – colors that evoke a new beginning and upbeat fresh start.

Tommy Hilfiger In considering the current social and economic climate, we believe quality and well-fitting neutral pieces are worthwhile investments. To excite them from season to season, we like to shop pops of color.

Tracy Reese Versatility! My goal is to create year-round fashion in seasonless colors.

VPL by Victoria Bartlett Often, consumers are drawn to the extremes of the collection, either styles that are offered in dark colors such as Blacks and Grays, or the styles like breaker tanks that have a dark body and bright accents, such as Neon Pink, Meadow and Citrine.

Yigal Azrouël Consumers are gravitating toward color, which is something I have never been afraid to experiment with.
